

Choose One Option: Creating a Reel on DVD - or - Creating a YouTube Portfolio

Requirements:

Create a DVD interface using iDVD.

Your interface must relate to your portfolio of videos. (Not a random baby/dog photos)

Your interface must feature your Reel Video.

You need to create a Video Reel.

Your video reel must include short clips from each project (visuals, not sound).

It should highlight your best work.

The videos should be set to music and cut to the beat.

Your DVD should have all of your work available to be viewed.

You need to include full-length videos of all of your projects.

You need to create a "Play All" video that has all of your videos combined with short black spacers between.

Compilation Reel - DVD		Points	You Grade Yourself	Teacher Grades You
